Job Description

- Obtains manufacturing orders, verify orders are correct and determines whether order is complete or incomplete. Assists with the production of cold roll forming with the ability to technically and mechanically apply them in a competent, safe and timely manner.
- Setup/operate Grob Gear Rolling Machines, using a wide variety of instruments for measurements.
- Examines material as it is being processed. If material/product is unacceptable, stops the process, and orders a remake.
- Places finished products into boxes and or crates.
- Verify manufacturing efficiency and quality (accuracy, scrap, utilization, rework, equipment downtime).
- Complete order paperwork and recording requirements.
- Communicate with other employees in a calm professional manner; and listen well.
- Maintain production rate consistency; meet or exceed established minimum production rates.
- Comply with relevant occupational health and safety requirements.
- Keeps the production area neat, clean and organized.
- Assume responsibility for quality of workmanship and accuracy.
- May be required to perform other tasks as required.

Job Type: Full-time

Salary: \$15.00 to \$18.00 /hour

Application Questions

- How many years of manufacturing experience do you have?
- What is the highest level of education you have completed?
- Where do you see yourself in the future?
- What wage are you looking for?
- What measuring tools have you used? Do you know how to use a micrometer?
- What previous machines have you worked on?
- Are you open to being trained on other machinery?
- What do you expect from a boss?
- Why do you want to be part of Grob?
